

poco's cafe

A walk through the remains of the original Pocahontas town site provides a glimpse into the historic past of the Jasper Park Collieries and the thriving community of Pocahontas, Alberta from 1908 to 1921.

In the vicinity of the resort you can also visit a natural marsh area, favored by the migrating waterfowl, common and exotic. Where there is marsh, there's moose, deer and elk as all of these species are indigenous to the area. Black bear, mountain sheep and mountain goats roam throughout the park, and while grizzly bear sightings are rare, they are possible.

SUPPLIES WERE PACKED IN FROM THE EAST ON THE OLD JASPER TRAIL AND BY 1910 WE HAD STARTED WORK ON THE MINE.
